## **Sr. Mary Louis Whalen Scholarships**

In the 1940s, Saint Saviour High School had a special faculty member named Sr. Mary Louis. She came to Saint Saviour in 1942 (right at the start of WWII) and stayed through 1950. According to our yearbooks, during this time, our chemistry lab was built to meet the needs of a wartime world. The 1st Chemistry class had only 11 students and this course led many students to choose careers as nurses, technicians & research chemists. The young women in this class even held an open house to showcase the various phases of lab work.

Sr. Mary Louis also started the first science club called "Students of Science", with 40 members. She introduced the club in Nov. 1943 to foster an increase in knowledge, perfection of skills, & application of scientific reasoning and knowledge. The Club participated in a Research Program sponsored by the Cancer Research Foundation of New York & held joint meetings with students of Holy Angels Academy.

Thank to donations from alumna Dr. Evelyn Feudale Allen '51, who was heavily influenced by Sr. Mary Louis, we have established the Sr. Mary Louis Whalen Scholarships for high achieving students in the sciences at Saint Saviour. Congrats to this year's winners of \$500 scholarships each: Carolyn Adams '17 and Lauren Duggan '17 - both daughters of alumnae!! Both are pictured here with Director, Advancement - Christine Bove '95.

## Saint Saviour History - Song Contest

Song Contest took place in 1956 for the first time as an Athletic Association event. Of course - the Seniors won (seen below celebrating). Song Contest still continues today with similar cheers and

formation to the first ones in the 1950s! I am sure many of you can still sing your songs today! Have any memorabilia from song contest? Still remember your cheers? Share your memories and photos with us!
